

## CONTENTS

<i>Karetnikov V.G.</i>	
Preface .....	8
<b>Interacting Binary Stars</b>	
<i>Andronov I.L., Chinarova L.L.</i>	
Outburst cycle length variations in the dwarf nova EM Cygni. ....	9
<i>Andronov I.L., Kimeridze G.N., Kolesnikov S.V., Pavlenko E.P., Poplavskaya (Bazej) N.V., Shakhovskoy N.M., Smykov V.P., Shakun L.I.</i>	
Extrema of the polar AM Her: results of multitelescope monitoring .....	14
<i>Bondar' N.I., Vitrichenko E.A.</i>	
The eclipsing binary system BM Ori .....	18
<i>Bondarenko I.I., Perevozkina E.L.</i>	
The catalogue of photometric, geometrical and absolute elements of contact binary stars of the early spectral type .....	20
<i>Borisov N.V., Neustroev V.V.</i>	
A spot structure of accretion disk of U Geminorum.....	22
<i>Chochol D., Pribulla T.</i>	
Shaping of nova shells - the case of nova V 1974 Cygni .....	24
<i>Greiner J., Bickert K., Luthardt R., Viotti R., Altamore A., Gonzales-Riestra R., Stencel R.E.</i>	
Optical, UV and X-RAY observations of the symbiotic star AG Draconis during quiescence and the 1994/1995 outburst .....	26
<i>Karetnikov V.G.</i>	
Properties of the subgiants in the eclipsing binary systems of different types .....	28
<i>Marsakova V.I., Andronov I.L.</i>	
Long-term variability of the novalike variable V Sge .....	34
<i>Pavlenko E.P.</i>	
MV Lyrae in the last low state in 1995–1996 .....	38
<i>Perevozkina E.L.</i>	
The role of magnetic stellar wind and mass transfer in close binaries of the early spectral type .....	40
<i>Petrík K., Hric L., Niarchos P., Urban Z., Velič Z.</i>	
Long-Term Photometric Monitoring of Cataclysmic Variables: Preliminary Results for T CrB, CQ Dra and GK Per .....	41
<i>Pribulla T., Chochol D.</i>	
Period change in the contact system AW UMa .....	43
<i>Pustyl'nik I.B., Pustynski V.F.</i>	
Precataclysmic variables: observational data and models .....	45
<i>Repin S.V.</i>	
Geometry of geminga rotation according to light curves in gamma-region .....	47
<i>Rosenbush A.E.</i>	
Light curve of novae in the "outburst amplitude, envelope radius" coordinates as the basis for the classification of novae on types .....	49
<i>Rovithis-Livaniou H., Rovithis P., Kalimeris A.</i>	
The significance of using higher order polynomials to describe the (O-C) diagrams of eclipsing binaries .....	51
<i>Sholukhova O.N.</i>	
The search for SS433 objects: H $\alpha$ photometry of blue stars in M33 .....	53
<i>Suleimanov V.F., Shimansky V.V.</i>	
Line formation in spectra of X-ray novae .....	55
<i>Suleimanov V.F., Zhukov G.V., Senio D.S.</i>	
Observations and interpretation of the photometric variability of TT Ari .....	57

<i>Svirskaya E., Shmelev A. Yu.</i>	
Prediction of the components mass ratios and the spectral classes of the main component for W UMA-type eclipsing variable stars .....	59
<i>Zola S.</i>	
Preliminary results of modeling of light curves of WW And .....	61
<b>Stellar Atmospheres</b>	
<i>Dragunova A.V., Belik S.I.</i>	
G-stars: observations and theoretical modeling .....	64
<i>Ivanova D.V., Shimansky V.V.</i>	
NonLTE analysis of the NaI lines in the solar spectrum .....	66
<i>Komarov N.S., Shevchuk T.V.</i>	
The cool giant stars and chemical evolution of galaxy .....	68
<i>Kovtyukh V.V.</i>	
The abundance of helium and stellar pulsation .....	72
<i>Kuznetsova L.A., Shavrina A.V.</i>	
On the GF-values for some diatomic molecular spectra .....	74
<i>Lyubimkov L.S.</i>	
Observational manifestations of early mixing in B- and O-type stars .....	76
<i>Lyubimkov L.S., Rachkovskaya T.M., Rostopchin S.I., Tarasov A.E.</i>	
Investigation of components of the binary system 38 Per .....	77
<i>Mashonkina L.I., Shimanskaya N.N., Shimansky V.V.</i>	
Laws in behaviour of NonLTE effects for the NaI and MgI atoms for K - A stars .....	78
<i>Mishenina T.V.</i>	
The chemical composition peculiarities of G,K giants .....	80
<i>Yushchenko A.V.</i>	
Abundances of heavy elements in Sirius ( $Z > 72$ ) .....	84
<i>Yushchenko A.V., Gopka V.F.</i>	
The chemical composition of Procyon .....	86
<i>Mishenina T.V., Klochkova V.G., Panchuk V.E.</i>	
Subdwarfs: Abundance of light elements .....	88
<i>Pavlenko Ya.V.</i>	
Brown dwarfs: mystery and show .....	90
<i>Pavlenko Ya.V., Yakovina L.A.</i>	
LTE and NLTE lithium abundances in atmospheres of lithium rich red giants .....	92
<i>Sakhibullin N.A., Shimansky V.V.</i>	
About probability of research of the NN Ser spectrum by model atmospheres method .....	94

### Physically Variable Stars

<i>Alekseev I. Yu., Gershberg R.E.</i>	
On the spottedness of red dwarf stars .....	96
<i>Pavlenko E.P.</i>	
Two new variables (Miras?) in Ophiuchi .....	97
<i>Andrievsky S.M., Klochkova V.G.</i>	
Contemporary problems of astronomy: the chemical composition of cepheids and related stars .....	98
<i>Chinarova L.L., Andronov I.L., Schweitzer E.</i>	
Cycle-to-cycle variability of the symbiotic binary R Aqr .....	100
<i>Dorokhov N.I., Dorokhova T.N., Beletskiy Yu.V.</i>	
About the flashes' activity of A0535+26 in optical band .....	105

<i>Dorokhova T.N., Dorokhov N.I.</i>	
Research of the variability of $\lambda$ Bootis stars by using the dual channel photometer .....	107
<i>Kudashkina L.S., Andronov I.L.</i>	
Fourier coefficients for the light curves of 62 Mira-type stars .....	108
<i>Repin S.V., Michel E., Auvergne M., Baglin A., Goupil M.J., Gurin L.S., Samoilo Yu.O.</i>	
$\delta$ Scuti star GX Pegasi: additional analysis .....	112
<i>Rosenbush A.E.</i>	
On evolutionary status of stars with the R CrB phenomenon .....	114
<i>Shpychka I.V., Virun N.V.</i>	
The chromosphere-like envelope of the variable star T Tau .....	115
 <b>Mathematical methods and Astronomical Equipment</b>	
<i>Abramenko A.N., Okhmat N.N., Prokof'va V.V., Sharipova L.M.</i>	
Slitless digital TV spectrophotometer of the Crimean astrophysical observatory .....	117
<i>Bacoot P.A., Ershova O.M., Shumilov Yu.P., Dobrovolsky A.V.</i>	
A laser star as a reference radiation source in forming nondistorted aes images .....	119
<i>Blagodyr J.</i>	
The eight-channel photometer-polarimeter. 1. The selection and registration system .....	121
<i>Anatcky V.A., Karpov N.V., Kuznetsov V.I., Sergeev A.V., Tarady V.K., Fomenko A.A.</i>	
The mounting of the new 2-m RCC telescope at Terskol in 1994-1996 .....	122
<i>Bondarenko Yu.N., Scheglov P.V.</i>	
Recording the calcium spectrum in capillary lamp .....	123
<i>Halevin A.V.</i>	
Computer program for time series reduction and analysis .....	125
<i>Marsakova V.I., Andronov I.L.</i>	
Local fits of signal with asymptotic branches .....	127
<i>Ivanov V.N., Ryabov A.V., Pereversentsev A.F.</i>	
Engineering development of telescope control systems .....	131
<i>Kablak N.I.</i>	
The influence of atmosphere into radorangefinder observation of artificial earth satellites ( A E S) ..	132
<i>Motrunch J.M., Neubauer I.F., Ushtan N.V.</i>	
On the problem of improving laser distance measurer LD-2 .....	134
<i>Pereversentsev A.F., Ivanov V.N., Ryabov A.V., Arkhipov M.G., Lisova L.E.</i>	
Analog IR-photometer .....	136
<i>Pereversentsev A.F., Ivanov V.N., Ryabov A.V., Lisova L.E.</i>	
Peculiarities of the use of photoelectron multipliers (PHEM) .....	138
<i>Pereversentsev A.F., Komarov N.S., Kantsen L.E., Ryabov A.V., Lisova L.E., Cherkas A.Y.</i>	
Increase in sensitivity of photoelectron multiplier (PHEM) .....	140
<i>Ryabov A.V., Shakhruhanov O.Sh., Ivanov V.N., Pereversentsev A.F.</i>	
Parallel communication interface .....	142
<i>Sergeev Ju.A., Sukhov P.P.</i>	
The point object's image forming Ray model .....	143
<i>Sergeeva T.P.</i>	
The automatic measuring machines and ground-based astrometry .....	145
<i>Sergeeva T.P.</i>	
The verification of data of measurements at the creation of sky survey catalogues with automatic measuring machines PARSEC .....	146
<i>Shakun L.S.</i>	
The estimation of the height and half-width of the twilight beam in earth atmosphere .....	148
<i>Sukhov P.P., Strygin N.Z.</i>	
A part of the Starry sky description forming when TV observation .....	153

<i>Udovichenko S.N.</i>	
Interface and software for oscilloscope comparator .....	154
<i>Shakhrukhanov O.Sh.</i>	
Low energy timer .....	155
<i>Vovchyk E., Blagodyr J., Logvinenko O., Klym B.</i>	
Some ways of improvement the electrophotometric instruments .....	156

### **Cosmology and Extragalactic Objects**

<i>Aleksandrov Yu.V., Bannikova E.Yu.</i>	
The cosmological test "magnitude-redshift" for some models of gravitational end physical vacuum ...	157
<i>Aleksandrov Yu.V., Tararoyev Ya.V.</i>	
Metrical evolution of multidimensional universes .....	159
<i>Ardeljan N.V., Bisnovaty-Kogan G.S., Moiseenko S.G.</i>	
2D calculations of collapse of rotating magnetized bodies .....	160
<i>Gladush V.D., Konoplya R.A.</i>	
The invariant splitting formalism in general relativity .....	161
<i>Kovalev Yu.A., Kovalev Y.Y.</i>	
A possible reason of forming the various type of spectra in extragalactic objects .....	163
<i>Kovalev Yu.Y.</i>	
Analysis of 6-frequency simultaneous observations of 170 compact extragalactic objects in 1995–1996: A statistics of main spectra parameters .....	165
<i>Lyakhovich V.V.</i>	
Brief description of the restoration method of a vector velocity field in gaseous disks of spiral galaxies	167
<i>Ossipov D.L.</i>	
Contribution of topological defects to the variability and structure of extragalactic sources of light ..	169
<i>Sotnikova N.Ya.</i>	
Simulations of large-scale gaseous structures with SPH .....	171
<i>Zakhozha V.A., Blokhina M.D., Pysarenko A.I., Yatsenko A.A., Slusarenko Yu.V.</i>	
On the problem of the numerical model construction of zero-age substars .....	173

### **Small Bodies of the Solar System**

<i>Andreev V.V.</i>	
Small velocities of meteoroids: interrelation of solar system small bodies .....	175
<i>Belkovich O.I., Suleymanova S.L.</i>	
Space density distribution of meteoroids over the sphere with radius 1 A.U. ....	177
<i>Burlak N.R., Golubovskaya T.A., Koshkin N.I., Strahova S.L.</i>	
The asteroid's rotation parameters determination using photometrical data .....	179
<i>Burlak N.R., Korniychuk L.V., Korobeynikova E.A., Koshkin N.I.</i>	
The Light Curves of theoretical asteroid's models .....	181
<i>Dobrovolsky A.V., Paltsev N.G., Medvedev Yu.A., Shumilov Yu.P., Petrov M.P., Chaichuk R.A., Depenchuk E.A., Golubovskaya T.A., Strahova S.L.</i>	
Observational Result on Cosmic Objects: "Okean 7" (94-08-1), "Sich-1" (95-132-1) .....	183
<i>Epichev V.P., Bratijchuk M.V., Isak I.I.</i>	
About the dynamics and rotation of the artificial satellites .....	185
<i>Kirichenko A.G., Klimik W.U., Kudak K.A.</i>	
Experimental confirmation of the exactness of orbital artificial near-earth objects "SICH-1" measurements with optical instruments by astronomical observatories of Ukraine .....	186
<i>Prokof'eva V.V., Tarashchuk V.P., Karachkina L.G.</i>	
The precession of asteroid 1620 Geographos .....	188

<i>Shumilov Yu.P., Dobrovolsky A.V., Paltsev N.G., Medvedev Yu.A., Petrov M.P., Chaichuk R.A., Korniychuk L.V., Tomak L.F., Depenchuk E.A.</i>	
Observational results of calibration and navigation cosmic apparatus (CA) .....	190
<i>Smirnov V.A.</i>	
Problem of latent mass under radiation of meteors .....	192
<i>Tsitsin F.A., Chepurova V.M., Genkin I.L.</i>	
Origins of comets: the hypothesis of relict reservoir of cometary bodies (CB) as unitary store of comets of the solar system .....	193
 <b>History of Astronomy, Amateur Astronomy and Astronomical Education</b>	
<i>Andronov I.L., Chinarova L.L., Menchenkova (Luthardt) E.V., Myalkovskij M.I., Kosmykina (Yasinskaya) M.P., Kudashkina L.S.</i>	
Twenty years of the Odessa correspondence courses .....	195
<i>Bryukhanov I.S., Askirko V.M.</i>	
NSV 05513 = 69 ( $\Delta$ ) UMa – a long–periodic eclipsing variable? .....	196
<i>Bryukhanov I.S., Vereshchagin G.V.</i>	
Results of observations of V 1081 Tau and a new EA–type variable star BD+23°770 in the Taurus ...	197
<i>Bryukhanov I.S.</i>	
New EA–type variable star in the field of NGC 2174 and NGC 2175 .....	198
<i>Eremeeva A.I.</i>	
Ukrainian scientists and the beginning of the native meteoritics .....	199
<i>Paschke A.</i>	
Some European variable star observers organizations .....	201
<i>Paschke A.</i>	
Variable stars in Canis Minor, April 1996 .....	203
<i>Smirnov V.A.</i>	
History of meteor research in Odessa .....	204
<i>Paschke A.</i>	
Eclipsing stars in Ophiuchus .....	205
<i>Volyanskaya M.Yu.</i>	
Eminent astronomers - graduates of the Odessa University .....	207
 Astronomical Observatory of the Odessa State University .....	 213
